CodeCog's Equation Editor is great when you just need little snippets of code to insert here and there, but if you are creating a document that contains a lot of mathematical expressions, you will find it much easier and more efficient to create a complete LaTeX document. In order to create LaTeX documents, you need two pieces of software: a LaTeX distribution and a text editor.

I'm not going to lie - my first sourdough bread was a brick. In was in 2011, when I started my sourdough bread baking journey. I got myself Chad Robertson's book Tartine Bread and a dutch oven in a hope to get that perfect crunchy crust and tender soft crumb. First, it took me a while to make sourdough starter (I blame winter for this), and the dough was anything but rising.

## **Step by step beginner's guide to perfect sourdough bread**

Near Field vs Far Field Measurements. With near field probes, you're typically measuring an electric or magnetic field in the near field (within 1 wavelength) as opposed to the far field.. When you're measuring in the near field, it's almost impossible to accurately extrapolate to an absolute field strength value in the far field because the relationship between the E (electric) and H ...
