In accounting, the cost principle is part of the generally accepted accounting principles. Assets should always be recorded at their cost, when the asset is new and also for the life of the asset. For instance, land purchased for \$30,000 is appraised at the much higher value because the housing market has risen, but the reported value of the land will remain \$30,000.

While there is growing interest in IFRS within the US, interest outside the US has exploded. Weygandt's third edition of Financial Accounting: IFRS highlights the integration of more US GAAP rules, a desired feature as more foreign companies find the United States to be their largest market. The highly anticipated new edition retains each of the key features (e.g. TOC, writing style, pedagogy ...
