History. The design language is based on the design principles of classic Swiss graphic design. Early glimpses of this style could be seen in Windows Media Center for Windows XP Media Center Edition, which favored text as the primary form of navigation. This interface carried over into later iterations of Media Center.

Apple Inc. v. Samsung Electronics Co., Ltd. was the first of a series of ongoing lawsuits between Apple Inc. and Samsung Electronics regarding the design of smartphones and tablet computers; between them, the companies made more than half of smartphones sold worldwide as of July 2012. In the spring of 2011, Apple began litigating against Samsung in patent infringement suits, while Apple and ...

If you specify dimensions on the <embed> element directly, you will lose the ability to resize the element via CSS, because the inline styles will always take precedence over the other styles in your file. Therefore it is recommended that you specify dimensions using external CSS rules, as shown here. Note: PDFObject automatically appends the class pdfobject to the <embed> element, and ...
