

AUTOMATIC TRANSMISSIONS TRANSAXLES 4TH EDITION

### **[automatic transmissions transaxles 4th pdf](#)**

A dual-clutch transmission (DCT) (sometimes referred to as a twin-clutch transmission or double-clutch transmission) is an automated automotive transmission, closely related to a manual transmission. It uses two separate clutches for odd and even gear sets. It can fundamentally be described as two separate manual transmissions with their respective clutches contained within one housing, and ...

DEXRON is the trade name for a group of technical specifications of automatic transmission fluid (ATF) created by General Motors (GM). The name is a registered trademark (later becoming a brand) of GM, which licenses the name and specifications to companies which manufacture the fluid and sell it under their own brand names. Not all Dexron fluids are licensed for reselling under another brand ...
