Reflective practice is a core skill – it is an active, dynamic process to be honed through life-long experiential learning. In time, we get the reflective practice skill set where reflection becomes automatic, so much so that unless we stop to think about it, it is embedded in our professional persona.

The value of reflective practice for partnership brokers

Reflective Practice. Reflective Practice is a modern term, and an evolving framework, for an ancient method of self-improvement. Essentially Reflective Practice is a method of assessing our own thoughts and actions, for the purpose of personal learning and development. For many people this is a natural and instinctive activity.
